The banjo is an instrument that is synonymous with southern Appalachian culture. Its simple austere tones reflect the lifestyle of America's early farmers.

The Banjo II Farmhouse by MossCreek is a reimagined version of the farmhouses of southern Appalachia. Minimalist modern elements combine nicely with historic farmhouse massing.

The main level features open living areas and a master suite with beamed ceilings. The large glass of the great room lets dramatic light fill the home. On the upper level the Banjo features three pleasant guest rooms, a multi-purpose loft and sitting areas.

At home in any environment, the Banjo is an ideal home for enjoying full time living or weekend getaways.
