The Ion III Farmhouse by MossCreek is a reimagined version of the farmhouses of the early 1900's. Minimalist modern elements combine nicely with a historic farmhouse massing.

The design features open living areas and master suite with beamed ceilings on the main level. Large windows in the great room let dramatic light fill the home. On the upper level the design features two full bedroom suites and a large den.

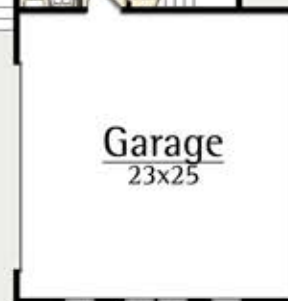

The Ion III is the perfect home for weekend getaways or full time living.
