By 1770, the piano had reached America. Many American songs composed then related to the American Revolution.

The Piano by MossCreek symbolizes living in the early American landscape. The exterior hearkens back to America's early farmhouses.

On the interior the Piano features a master suite on the main level along with the well know Moss-Creek living triangle of open kitchen-dining-great room areas.

A large screened outdoor living porch on the rear of home is great for relaxing in the outdoors free from the nuisance of insects.

The upper level features two spacious guest rooms with baths, and a viewing balcony.
