

MOSSCREEK

RUSTIC AMERICAN HOME DESIGN

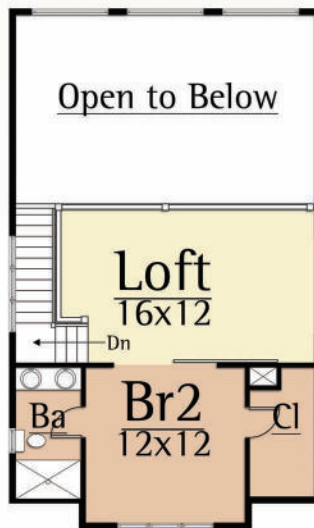

RIDGETOP

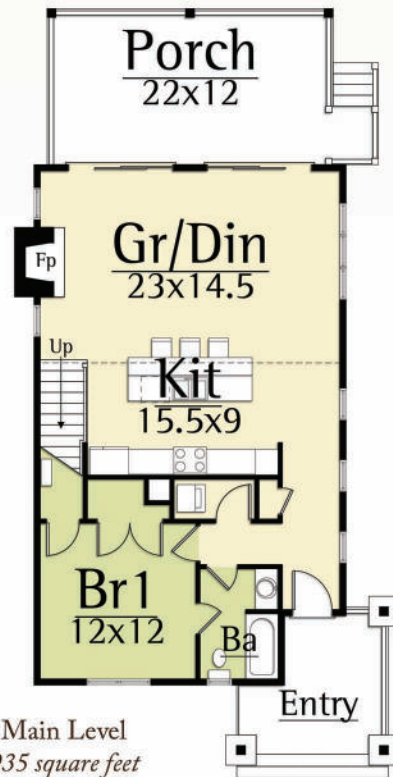

Ridgetop is a cabin that blends with the rugged mountain landscape. It is built with wood, stone and poplar bark, giving it a rustic and cozy look. The cabin has two bedrooms, one on each floor, and a spacious loft that overlooks the vaulted great room. The fireplace is the heart of the cabin, warming up the whole place with its crackling flames. The Ridgetop plan is the perfect design for a vacation rental investment property for anyone who wants to enjoy the beauty and adventure of the mountains. It is a place where stories are made, and memories are cherished.
