

# POND HOUSE ONE

MODERN FARMHOUSE

*1,534 total square feet*

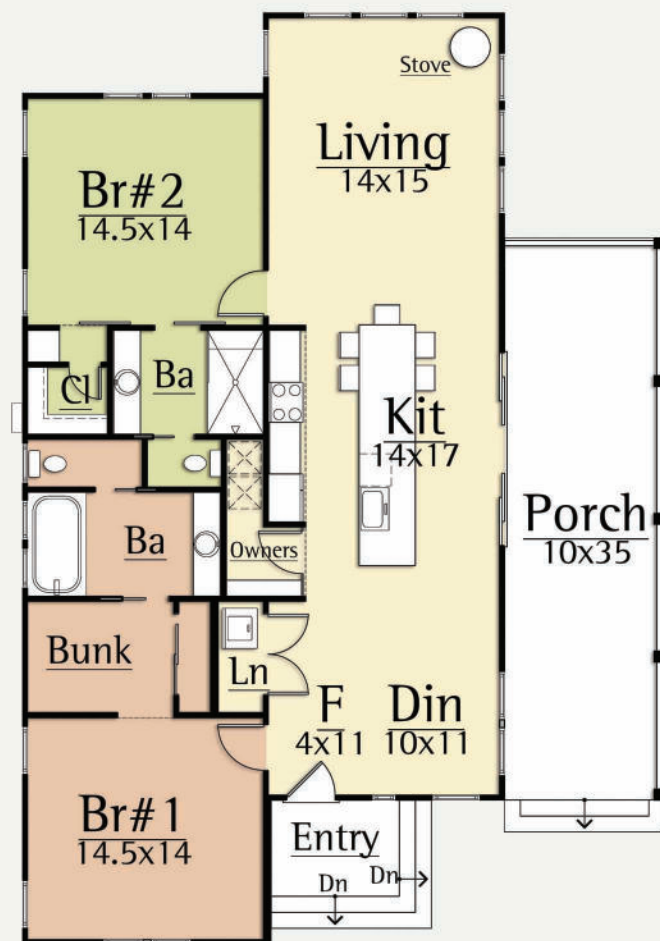

*2 Br, 2 Ba*

The American farmhouse and barn are icons of our heritage. They evoke a sense of wellbeing and closeness to the natural environment.

The Pond House One design by MossCreek is a contemporary blend of house and barn style.

The contemporary exterior of the Pond House One is full of expressive contemporary roof lines and a mix of classic modern farmhouse elements. This organic approach ensures that this contemporary design maintains a relaxed feel.

The Pond House One interior features one level living with spacious open Living/Kitchen/Dining areas and paired master suites. A gracious screened porch creates outdoor opportunities free from insects.
